After studying Mandarin Chinese in China and Taiwan for over fifteen years, it occurred to me that there is no easy way to learn the language. However, there is a right and wrong way of learning Chinese.

The wrong way is to learn common phrases and hope that you can collect enough to "pick-up" the language. Unfortunately, most Chinese programs will teach you this way. I tried this and became frustrated because progress was extremely slow. The right way is to learn pronunciation, speaking, reading, writing and grammar at the same time, while thoroughly learning a particular topic.
