Download online boek Nederlands Strandbeest. The Dream Machines of Theo Jansen Taschen , Intricate as insects, but with bursts of equine energy, "**Strandbeests**" or "beach creatures," are the project of Dutch artist **Theo Jansen**, who has been working for nearly two decades to create a **new life-form that moves, and even survives, on its own.**

Set to roam the beaches of Holland, the *Strandbeests* pick up the wind in their gossamer wings and spring, as if by metamorphosis, into life. As if it were blood, not the breeze, running through their delicate forms, **they quiver, cavort, and trot against the sun and sea**, pausing to change direction if they sense loose sand or water that might destabilize their movement.

Coinciding with a travelling exhibition, this eBook captures Jansen's menagerie through **films, drawings, sketches, and the stunning photographic studies of Lena Herzog**, who has followed the evolution of the *Strandbeests* for the past seven years. The result is a mesmerizing encounter not only with a **very surrealist brand of marvelous**, but also with **whole new ideas of existence.**
