Download online boek Nederlands Strobox 2010 Jānis Lanka , The fall of 2009 brought the concept of Strobox to life through an iPhone app. After recognizing the need for a place to share the diagrams generated by the app, we launched our online community in 2010. I'm glad to say that 2011 has brought something just as new and exciting: the book containing a selection of 50 of the most amazing and popular photos submitted during the year of 2010 by our community members. This, hopefully, is the first set of many to come.

Strobox 2010 seeks to showcase our community's achievements, acknowledge our top contributors, and most importantly, help us financially sustain our online community.

We're also sharing the book's profit with the top ten photographers who joined us for this initiative. For hardcover version go to <http://www.blurb.com/bookstore/detail/2419212>
